 - p. 14: Remrov: Koala Oxley Twinkles, <http://www.remrovsartwork.com>

Perception and Thinking Types: Some Examples

AUTISM

AUTO

ISMOS

αυτος

ιζειν

self

behaviour

opinion

automobile

autonomous

automaton

AU-TISM

MU-TISM

PU-RISM

ismos

isthmos

Example: Matti

Interests: drawing

making animé, videos

Thinking-style: pattern, structure

Characteristic: structuring, analytical

Special interest: yes

Leading perception: visual

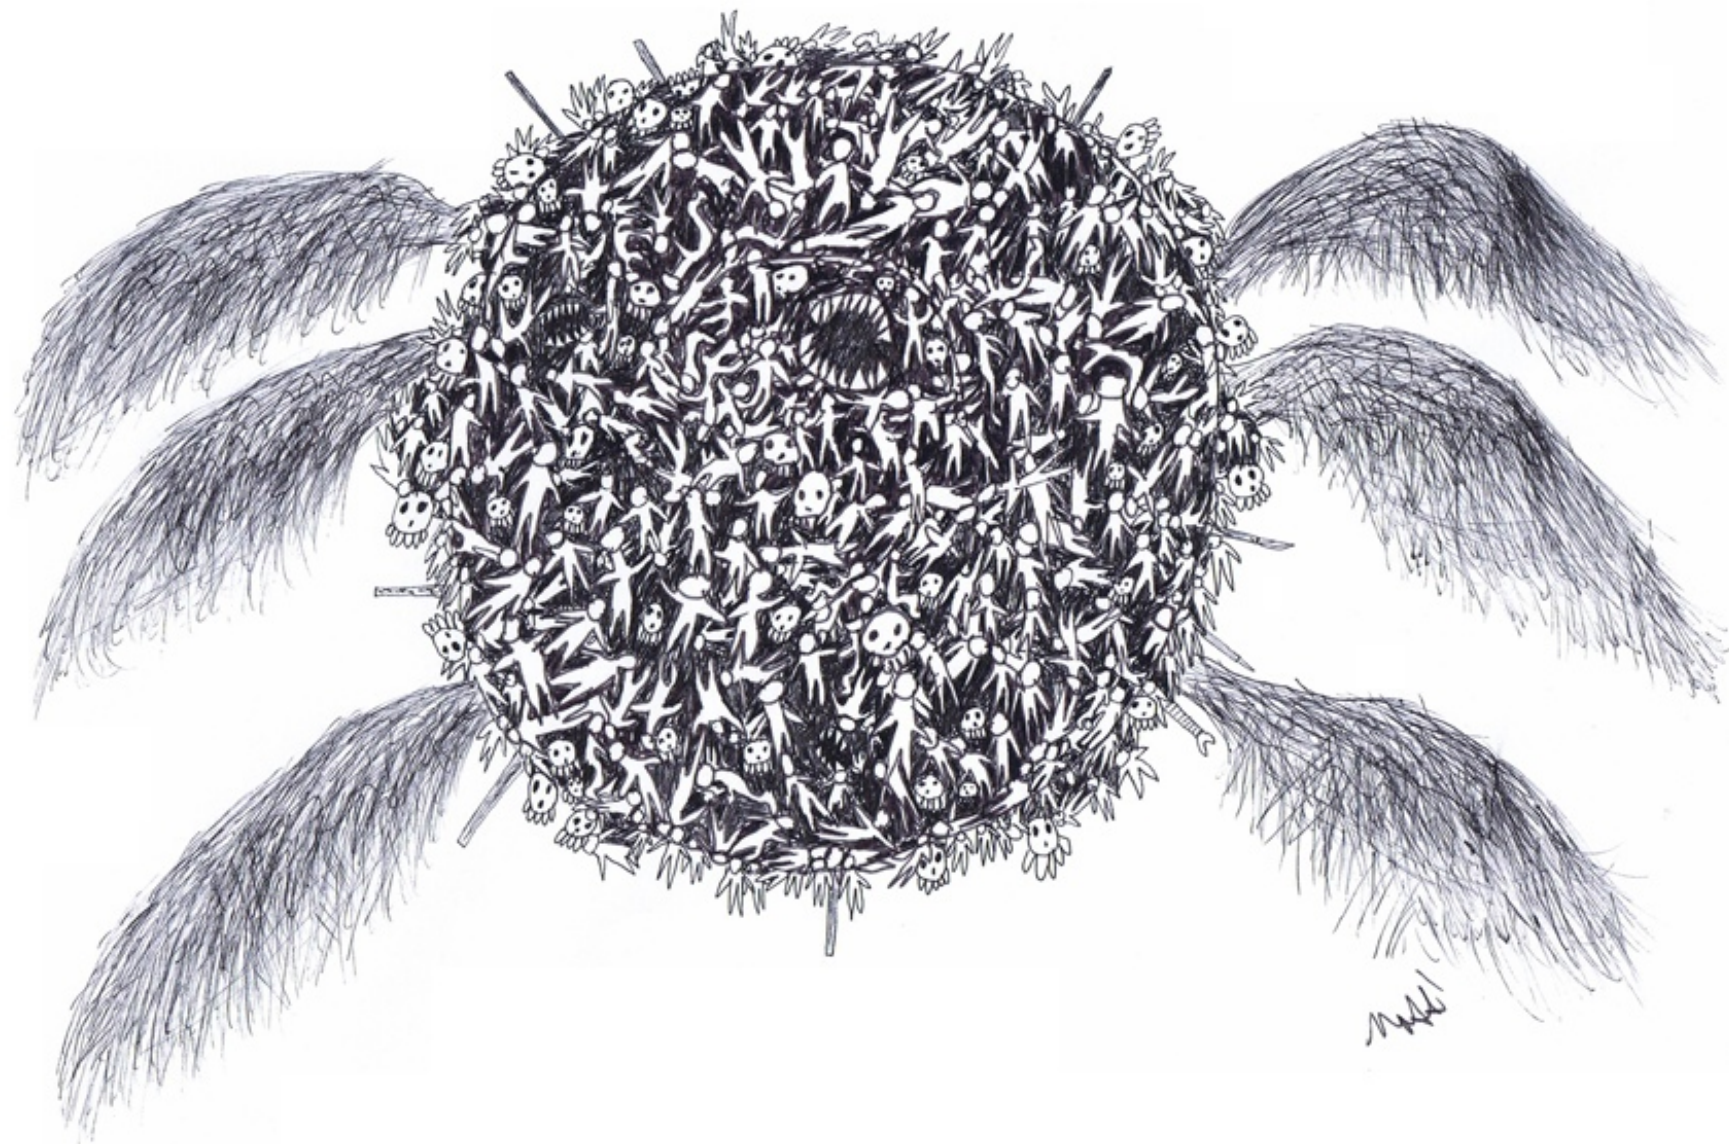

Memory: blurred

Concentration: blurred

Openness: unhidden

Overloads: no

problems with orienteering

Example: Maik

Interests: first-person shooter

Thinking-style: pictures

Characteristic: precise, very good picture memory

Special interest: no

Leading perception: visual

memory: very good

Concentration: bad

Openness: emotional

Overloads: yes

speaking in pictures

Example: Julian

Interests: chess

documentation movies (history, animals)

Thinking-style: pictures

Characteristic: logical, precise
non-verbal

Special interest: no

Leading perception: visual

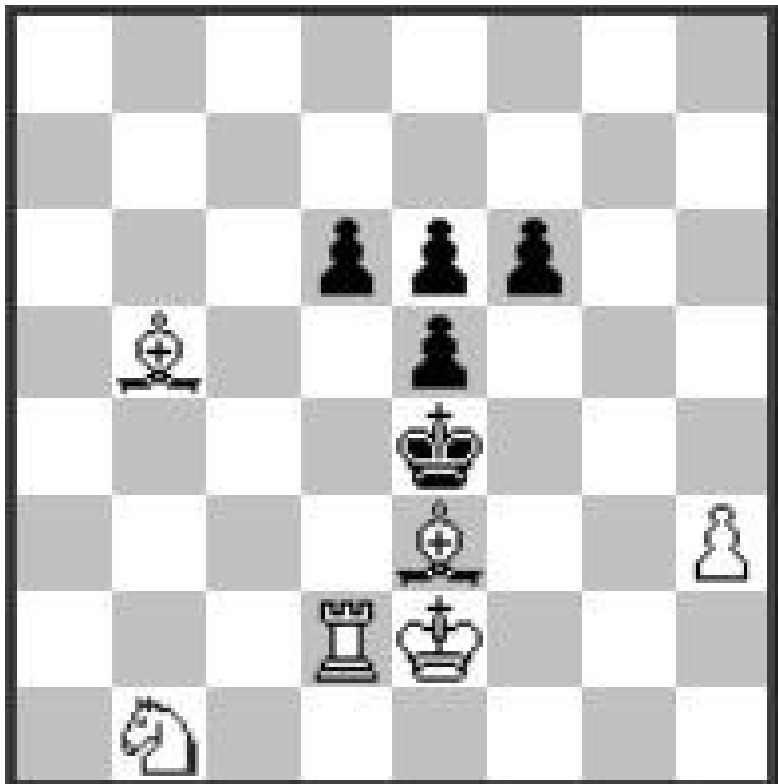

Memory: very good

Concentration: very good

Openness: unhidden, emotional

Overloads: no

reduced communication, dyslexia

„My Mind is a Web Browser“ (Temple Grandin)

It was like clicking a computer mouse on the desired picture.

Example: Torge

Interests: 3D-modelling
drawing

Thinking-style: pictures

Characteristic: associative
non-verbal

Special interest: yes

Leading perception: visual

Memory: good

Concentration: good

Openness: emotional

Overloads: no

can not write, selective mutism

**„Every time I try to write
and my hand comes
close to the paper
by intuition it starts
to draw a picture.
This is why I'm not
able to write letters.“**
